Writes Mr. R. E. Naftzger, Jr.:

"For me, the success of your—auction—in November has been a continuing source of pleasure—.

The sale was outstanding in many ways. The appearance of the catalog seemed excellent, the plates superb. Several 'firsts' come to mind —: not a single coin from my consignment was returned, and I received your check — just thirty days after the sale.

The auction did reach my objectives —. What is more important, the sale reflected your integrity and style which I value most highly."

Writes Mr. R. H. Lloyd:

"Thank you very much for the letter and the check. I must agree you did very well, as the total was well over what I expected the lots would bring. —"

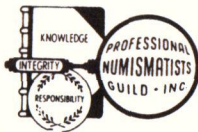

Thank you Mr. Naftzger and thank you Mr. Lloyd!

MILITARY PAYMENT CERTIFICATES REPLACEMENT NOTES

by Carlton "Fred" Schwan,
ANA 73295

The popularity of collecting Military Payment Certificates (MPC) has been rapidly increasing in the past few years. The increase in popularity can be attributed to an increased awareness of this area among collectors. Since 1961 information concerning MPC has been made available to the collecting public thus encouraging more collectors in this interesting field.

In 1961 the late Alfred J. Swails published *Military Currency of WW II* and about the same time information began appearing in numismatic periodicals. Ray Toy updated Mr. Swails' work in 1964 with the publication of *World War II Military Currency* which is now in a fourth edition as *World War II Allied Military Currencies*. In addition, *Allied*

Military Currency was published in 1968 by James Rutlander. These works did a great service to the field but they were directed to a specialized group not reaching many paper money collectors who were potential MPC collectors. The fifth edition (1971) of *A Guidebook of Modern U.S. Currency* by Neil Shafer was the first book dedicated to U.S. paper money which

recognized MPC. It included a section on the subject thus exposing many collectors to a new field. All of the above publications did a great service to collectors but even they made little mention of MPC replacement certificates — because very little was known about these. This article attempts to answer some of the questions pertaining to this interesting subcategory of MPC.

Just as with other currencies, MPC replacements are issued to replace certificates which are unsuitable for issue. Unlike U.S. currency which has replacement notes indicated by the familiar star, MPC replacements are indicated by deleting the serial number suffix letter. MPC serial numbers have eight digits with a prefix and suffix letter such as

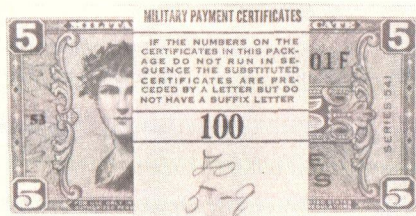

Fig. 1: Wrapper explains difference between regular issues and replacements.

A12345678A. Replacement certificates are indicated by deleting the suffix letter as in A12345678.

Fig. 2: Arrows indicate regular and replacement note serial numbers, with and without suffix letter.

As stated, very little information is available to collectors concerning MPC replacement certificates; therefore, the task for us is to learn some of the secrets of these intriguing pieces. The primary vehicle for unearthing these secrets is a survey of replacement certificates held by collectors. The remainder of this article is the report and interpretation of this survey recently taken.

THE SURVEY

In August, 1973, letters of inquiry were sent to eighty known collectors of MPC material. Most of these collectors responded quickly and enthusiastically. Though several collectors reported having no replacements at all, most had one or more and one collector reported an astonishing collection of thirty-nine different pieces. A total of 228 pieces with sixty-four of the possible ninety pieces were reported as a result of this initial survey. Armed with this information, articles were prepared for publication in *Coin World* (Nov. 28, 1973) and the *Bank Note Reporter* (Nov. 1973). As anticipated, these stories yielded additional information bringing the current total reported to 460 with seventy-four of the possible ninety (80% complete).

Several observations can be made from the results of the survey but drawing conclusions will be risky. Results were much as was expected with the key certificates generally not reported as replacements but there were some surprises.

Prior to the survey, all replacement notes were regarded as scarce which proved to be a reasonable assumption. Even the best collection did not have even a single certificate from each of the thirteen series though at least one such set has now been assembled. The same collection also boasts the only set of replacement certificates in one collection which is complete with each denomination of a single series (series 641). Several other collectors lack only two pieces of having a complete series. However, assembling collections with even one piece from each series will remain difficult since several series are quite scarce and the reported pieces are split among several collections.

GENERAL ANALYSIS

The following table illustrates the results of the survey to date. First is a general analysis followed by a series by series analysis.

The number of pieces reported is indicated for that particular series/denomination. The condition is of the highest grade reported. A question mark (?) indicates that the grade is in doubt.

The only definite information is that the certificates reported do exist. The certificates not reported certainly may exist and in some cases almost certainly do as pointed out in the series by series analysis.

HOW MANY WERE ISSUED?

It was hoped that analysis of the serial numbers reported would make it possible to estimate how many were issued of each series and denomination. Replacement notes have always been numbered independently of the regular issues though the number issued is not released. Two factors have diminished the accuracy with which these estimates can be made. First, one very reliable collector reported that he had been present when a shipment of MPC from the U.S. had been unwrapped and noted that replacement certificates were not in any logical order in the unbroken packages of MPC certificates. There is

no way of knowing if this was a one-time-error or a common occurrence.

Fig. 3: Series 541, 50¢ certificate.

Even more baffling were the serial numbers of some series 541 certificates. The 50¢ and \$10 certificates were reported with serial numbers far greater than the total issue of their

respective issues. The total reported issue of the 541 50¢ has been officially reported as 8,064,000 yet thirteen replacements were reported with serial numbers greater than 10,000,000. Two of these have reported serial numbers greater than 11,000,000. The remaining two replacements have serial numbers less than 1,000,000. The situation is similar with the series 541 \$10 but only two pieces were reported; serial numbers F00685579 and F21065241. No other series has even a single piece reported with a serial number approaching the number of the total issue. Presently there isn't a logical explanation for this occurrence.

However, an attempt has been made to analyze the serial number data gathered. It is estimated, based upon serial number data, that replacement certificates issued for any particular certificate would not exceed 5.7% of the total issue for that certificate. In addition, printing authorities were consulted who estimated that replacement certificates would not exceed 4% of the total issue. (This figure would vary from series to series depending upon the total number issued and the number of colors printed.)

For example, using the figures derived above, series 521 \$5 certificates would have an estimated replacement certificate issue not exceeding 364,800 (using 5.7%). However, a more important question is how many remain? Again using this example, if the number of all 521 \$5 certificates extant is liberally estimated at 200, the maximum number of replacements that

could be expected to remain is twelve. It is important to remember that this estimate was based upon maximums at each stage of the computations. The actual number is likely to be less than the estimate. This method of estimating the number extant for a given replacement certificate becomes even less valid in the later series. Starting in the early 1960's, it can be expected that the increased number of collectors sorted out and kept replacement certificates. Though this would not affect the number issued, it would increase the number remaining and the proportion of the total number of a certain certificate remaining which are replacement certificates.

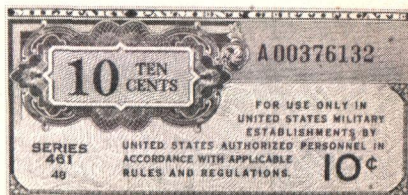

VALUES

It is very difficult to state values for MPC replacements. Just as with the scarce MPC regular issues, pieces are sold so seldom that it is nearly impossible to establish prices for any but the most "common" pieces. In general, the small denominations of the late issues may be valued at up to ten times the value of the regular issue of the same piece. However, the high value pieces of the same series might be valued at only about 30% above the price of the same piece in a regular issue because of the already high price demanded due to the denomination. Notes which are keys to the regular issue series are truly impossible to value as replacements since they are rare but are not as likely to command the additional premium which might be expected because of the already high price of the note as a type.

SERIES BY SERIES ANALYSIS

The following section lists each of the thirteen series of MPC with comments concerning that series as related to the replacement survey.

Fig. 4: Series 461, Sept. 16, 1946, thru March 10, 1947. Though the oldest series, this series was reported complete though the 25¢ thru \$5 have only a single example reported. A mild surprise was the reporting of four \$10 certificates. Though the regular issue \$10 is not scarce having four of these reported and only two each of the 5¢ and 10¢ was a surprise. The only reasonable explanation is the

extremely high printing of \$10 pieces (40,800,000) as opposed to the 5 and 10¢ pieces (7,616,000 and 8,064,000 respectively). The four pieces which were reported in only a single specimen are spread between these collectors.

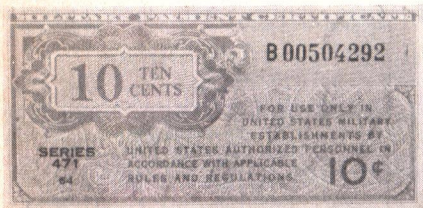

Fig. 5: Series 471, March 10, 1947, thru March 22, 1948. This series is generally regarded as the scarcest series of all MPC. The survey tends to confirm this with only four pieces reported, one each 5 and \$10 and two 10¢ pieces. The \$10 certificate is one of the rarities reported. The piece reported was in new condition in 1966 and is rubber stamped "specimen." It belonged to a collector who was a government official involved in international and monetary affairs at the time the series was issued. The series 472 \$5 reported below was known from the same source. Though there is a good chance that more of the small denominations exist, there is an equally good chance that the \$5 does not exist as a replacement certificate.

Fig. 6: Series 472, March 22, 1948, thru June 20, 1951. This series has both common pieces and a semi-key (\$5). The \$5 was located only under the circumstances described above for the series 471 \$10. The 25¢ which is reasonably difficult to locate as a regular issue was not reported but may yet turn up in limited quantities as a replacement. The \$5 may not exist as a replacement other than the one known piece which seems to have been saved under extraordinary circumstances.

Fig. 7: Series 481, March 22, 1951, thru May 25, 1954. The 50¢, \$5 and \$10 were not reported and only a single \$1 was reported. The 50¢ will probably

turn up but the \$5 and \$10 may not though the chances are much greater that the \$10 will be located than the \$5.

Fig. 8: Series 521, May 25, 1954, thru May 27, 1958. This series provided the greatest pleasant surprise. Two \$5 replacement certificates were reported which is the only true key MPC reported as a replacement. These pieces certainly should be prized by their owners. The \$10 was not reported. The \$10 is also a key and may well not turn up. The 50¢ and \$1 appear to be scarce with only a single piece of each reported.

Fig. 9: Series 541, May 27, 1958, thru May 26, 1961. This series was reported in relative abundance with forty-one pieces reported. The 50¢ alone had five pieces reported. The \$5 which many collectors consider the rarest regular issues of all MPC was as expected not reported though the \$10 which is a semi-key had two pieces reported. If the \$5 exists as a replacement it is a very desirable note. The greatest mystery of this series is the serial numbers of the 50¢ and the \$10 pieces mentioned earlier.

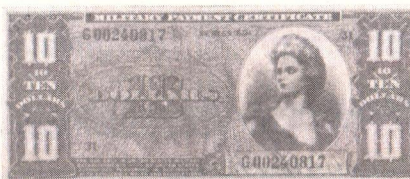

Fig. 10: Series 591, May 26, 1961, thru Jan. 6, 1964, is one of the scarce series with the \$5 and \$10 being keys to the regular issue set. The 50¢ certificate is one of the scarcest of the fractional MPC's. As expected, only a few replacements were reported for the entire series; five 5¢, one 50¢ and surprisingly two \$10. There is a good chance that a few more 5¢ and 10¢ replacements will be located in the future but it would not be at all surprising if the \$5 does exist as a replacement.

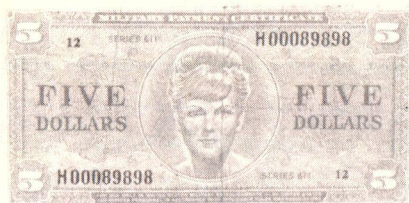

Fig. 11: Series 611, Jan. 6, 1964, thru August 31, 1965, is the first series which is considered relatively common. To an extent the replacement survey bears this out. The entire series had fifty-three pieces reported but the 25¢ and 50¢ certainly appear scarce with only a single 25¢ and no 50¢ reported at all. The higher denominations are reported in relative abundance, therefore, the 25¢ and 50¢ must be considered the keys of the series 611 replacement set.

Fig. 12: Series 641, August 31, 1965, thru Oct. 21, 1968. This is the first of four series to be devoted strictly to use in Vietnam. Though all denominations of series 461 were reported, series 641 is the first series to appear in multiples of each denomination. The \$5 had the fewest reported with only four. The series total was a healthy sixty-two. As stated this is the only series which has been completely assembled by any one collector. There is a distinct possibility of more of this entire series showing up and more complete sets of it being assembled.

Fig. 13: Series 661, October 21, 1968, thru August 11, 1969. Though the 50¢ was the least reported with two pieces, the 5¢ was the greatest surprise. No 5¢ pieces were reported at all until very late in the survey and only a total of six were reported which is by far the least of the recent 5¢ issues. The other Vietnam 5¢ issues averaged sixteen each reported. Traditionally, the 5¢ is the most saved of all MPC by servicemen because of the low face value thus

increasing the likely number of replacements remaining. Having the same total printing of 23,520,000 as the 10¢ which has seventy replacements, a different theory of the low reporting of the 5¢ must be adopted. Some of the scarcity is no doubt due to the random quality of the survey and some more pieces will turn up in the future.

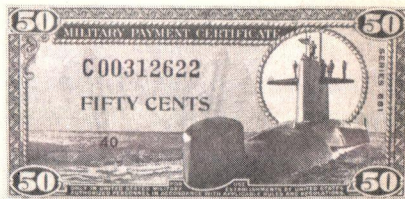

Fig. 14: Series 681, August 11, 1967, thru October 7, 1970. Another Vietnam issue with a highest number reported — ninety-three total. The 25¢ seems scarce with only two reported. At first it seems surprising that the \$20 certificate of this series is the most often reported replacement certificate with thirty pieces but because a large horde of \$20's is known to exist, the density of replacements is more understandable. More surprising is the fact that only two 25¢ replacements were reported. Also mildly surprising is the five \$5 pieces though large quantities of \$5 certificates are known to exist.

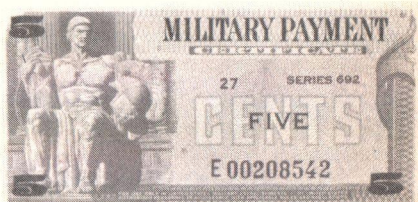

Fig. 15: Series 692, October 7, 1970, thru March 15, 1973. The final Vietnam series yields some surprises. The \$10 was for a long time the only Vietnam issue not reported and though one was finally located, it still appears that this denomination will remain scarce. The \$5 had only two and the 25¢ only four reported. Considering the short time since this series was discontinued, it is likely that more will be reported as the remaining pieces get into the hands of knowledgeable collectors. At first it is surprising that the \$20 had eleven replacements reported but the serial numbers of the pieces tell the tale. Seven of the eleven reported are within a serial number spread of only nine. Undoubtedly, an alert collector located a series of nine or more replacements and has since sold or traded them so that they have found their way into the hands of several collectors.

Fig. 16: Series 651, April 28, 1969, thru November 19, 1973. The last series of MPC which on discontinuance in Korea marked the end of MPC use provided some of the greatest surprises. Only five pieces were reported for the three denominations which were issued (\$1, \$5, \$10). While four \$10 were reported, only one \$1 and no \$5 were reported. Though more undoubtedly will be discovered, several collectors are known who vigorously search-

ed for replacements when in Korea using series 651 and found none at all. The likely reason for this scarcity is that this series had the smallest delivery of finished certificates of any series of MPC. The \$5 which had no replacements reported had only 1,600,000 issued which may mean that fewer than 50,000 replacements were issued. The last MPC series to be withdrawn may contain one of the key replacement issues; only time will tell.

One of the great advantages of MPC collecting is that the search continues for scarce pieces. Since MPC were first issued, servicemen have been keeping the discontinued series either intentionally or unintentionally. Undiscovered hordes must remain. Though records are maintained concerning the redemption of MPC, these records have never been released;

hence, there is no accurate way to estimate how many of specific pieces might exist. One serviceman reported keeping a replacement certificate because he noticed that it had no suffix letter and thought it was an error. The chances of finding more choice materials from sources such as this will remain for many years to come.

RESEARCH CONTINUES

Although the results have been pleasing thus far, it is hoped that more information will be reported in the future. From time to time, additional reports will be published as the material warrants. This author may be reached at Box 138, Portage, Ohio 43451.

This study would not have been possible without the help of many collectors; thanks are extended to all who participated. The participants were too numerous to mention but their assistance is deeply appreciated by the author and hopefully by the readers.

CENTURY OLD NOTES

President Culver and Kenneth Keith review his Mexican collection on exhibit at ANA headquarters.

FROM YOUR PRESIDENT

VIRGINIA CULVER

The results of our 50th Anniversary National Coin Week combined with a special membership drive were most gratifying. Almost 1800 new members were added to our roster as a result of your fine efforts and the excellent publicity received from the numismatic press. Your Association has been strengthened by your participation. There is

no reason why a membership drive has to be limited to a particular time of the year. Let us continue to add members each month. They are yours for the asking.

Numismatically, May has been an active month. The Greater New York City Convention sponsored by AINA brought recognition to the ANA in many ways. The honorary National Coin Week chairman, John Ryan, was given a plaque to mark the significance of his slogan, "History in Your Hands." A collector found the cooperation of convention officials, ANA officials, and the police department a happy ending to the solution of his robbery. Cooperation from the Israel Government Coins and Medals officials was pledged to ANA. The educational forum boasted an all gal cast — Governor Eva Adams, Honorable Mary Brooks and your president moderated by Margo Russell.

At the Central States Convention Governor Glenn Smedley was honored by Krause Publications as a "Numismatic Goodwill Ambassador" and your president participated in the educational forum.

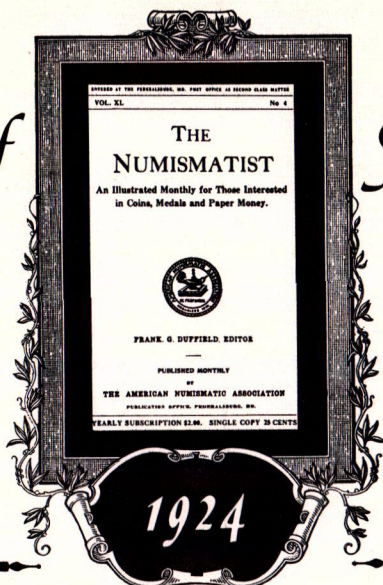

Hospitality was the keynote at the Pacific Northwest Numismatic Association Convention in Seattle. Your president was greatly honored with a special reception held the evening before the ribbon-cutting. It marked the very first time that an ANA president had attended a PNNA convention. They are all great boosters of our Association and a club representatives' luncheon devoted much time to ANA's benefits. Convention Chairman Marge Farnam did a marvelous job and it was most exciting to see such enthusiasm from each convention worker.

It was a great privilege to be in Colorado Springs to meet Kenneth Keith, donor of the large Mexican collection in our ANA museum. Governor Pittman and Governor Wilde joined our Headquarters' personnel in welcoming Mr. Keith to view selections from his collection on display.

Denver hosted the 3rd Annual Colorado-Wyoming Convention in which I participated. It is indeed an honor to represent the American Numismatic Association as its president at these conventions and it is most heart warming to be able to meet in person all of you dedicated workers for numismatics.

Pages of

Fifty
Years
Ago

by Leon T. Lindheim, LM 290

It is a never-ending pleasure to leaf through the pages of my back issues of *The Numismatist*. My collection being fairly complete from 1901 to date, I can make good use of the fifty-year index (1888-1938) and the twenty-year index (1939-1958). Dedicated men and women have made it possible for both the organization and its monthly magazine to grow.

In 1923 *The Numismatist* carried only 620 pages. In 1924 that number had grown to 784 pages. Part of this increase can be attributed to the February issue, which devoted a good part of its editorial space to the coins, medals, tokens and badges relating to Abraham Lincoln. The so-called "Lincoln Number" was an outstanding achievement and without a doubt was a major contribution to the growth of numismatics, since collectors of Lincolnia who had never searched for numismatic items relating to the Great Emancipator now had a new reference book to guide and possibly stimulate their interest in the direction of numismatics.

Likewise, in 1923 only 139 new members were signed up. In 1924 this number increased to 177, not a great number, but then, the total membership reported at the annual convention was only 938 as of July 31, 1924. The treasurer's report likewise

was most revealing. The expenditures for the fiscal year ending July 31, 1924, amounted to only \$3,659.27.

Today, we recognize that silver dollars all sell at a premium and to buy a new 40% clad silver Eisenhower dollar you have an outlay of \$3 per coin. In 1924 the problem was quite different. The September issue contained a short article headed "To Force Peace Dollars Into Circulation." It read:

"Stored in the vaults of the Treasury Department at Washington are hundreds of thousands of silver dollars that are not working. It is reported that the Treasury has embarked on a campaign to restore this coin to circulation. The initial step was taken when one of the coins was placed in the pay envelope of each of the 5,000 Treasury employees, and similar action will be suggested to other Government

bureaus. The retirement of an equal amount of silver certificates will follow as a matter of course. Few silver dollars have been in circulation in this part of the country during the last 10 or 15 years."

The "Descriptive Listing of Obsolete Paper Money" by D. C. Wismer continued to be published in most issues. During 1924, this series continued beginning with Indiana in January and ending with Belfast, Maine, in December. Other articles worthy of mention include an excellent piece by Dr. Julius Cahn on "The German Bracteates and their Art," "Money Weights" by O. P. Eklund, "The Coinage of a Phantom King" (Charles X of France) by Arthur C. Wyman, and "Medals and Plaques in 'Musikhistoriska Museet' at Stockholm" by Berta Holmberg. This later article was mentioned last year and was limited to medals relating to Sweden. The article mentioned here relates to medals of non-Swedish artists.

New issues reported, especially if they concern a rare coin, are fascinating. Only two foreign ones worthy of mention appeared. The January issue described and pictured the 1923 Italian gold 100 lire piece commemorating the first anniversary of rule by the Facists. Today we know that only 20,000 were struck and that this rare coin sells for over \$1,000. The second coin also mentioned in this same issue of *The Numismatist* was the recently discovered Gangut ruble dated 1914. It was struck by the Czarist government to commemorate the 200th anniversary of the naval

battle of the Gangut when Peter the Great won an important naval victory. With the start of World War I, the celebration to honor the victory was canceled and the coins were not released. According to Robert P. Harris' *A Guide Book of Modern European Coins* there were 30,000 struck and according to Krause and Mishler's *Standard Catalog of World Coins* only 317 pieces are extant.

In 1924 the only United States commemorative coin struck was the Huguenot-Walloon half dollar. There were 300,000 authorized, but only 142,080 struck. All were sold at a new issue price of \$1 each. Today, as we all know, this coin sells for in excess of \$40.

The March issue reported the death of one of America's leading numismatists, Lyman H. Low. He is best-known to the present generation because we still identify Jackson Hardtime Tokens by the number that Low assigned to them in his works on this subject. Born in Boston in 1845, he developed an early interest in numismatics. After service in the Thirteenth Massachusetts Volunteers during the Civil War, he returned to his home in Boston leaving within five years for New York City to join the Scott Stamp and Coin Company as manager of its coin department. In 1896 he went out on his own. As an active member of the American Numismatic Society, he co-edited its *American Journal of Numismatics* for fifteen years. He was a member of the American Numismatic Association since its inception in 1891.

In the May issue the untimely death

The official 1924 Cleveland ANA convention photograph taken at the Hollenden Hotel. Among the sixty-five persons pictured are, left to

of Victor David Brenner was reported. He was only 52 years of age at his passing, so we can only guess what great works of art might have been produced had V.D.B. lived a normal "Three score years and ten." Possibly the name would not be as well-remembered had not the artist put his initials on the reverse of the first Lincoln cents struck in 1909. Regardless, he was an artist of the highest calibre.

Last year I quoted a letter dated October 3, 1923, written by Julius Gutttag, wherein he suggested a "Coin Week." February 9 through 16 were designated "Coin Week" and the March issue reported that some forty to fifty cities throughout the United States had coin exhibits during that second week in February. The April issue followed up with an editorial entitled, "Shall We Have an Annual Coin Week?" We all know the answer since this year we celebrated a half century of coin weeks. Julius Gattag's dream has been realized.

The 1924 convention was held in Cleveland, Ohio, at the luxurious Hollenden Hotel. The report on a most successful convention appeared in the October issue. In spite of the convention being relatively small with only seventy out-of-towners registering with the General Secretary, the local papers gave excellent coverage due to the high calibre of the exhibits.

I would never forgive myself if I did not mention a few of the many bargains that were available fifty years ago. The rare Confederate States of America 1861 Montgomery, Alabama, issues were among the

offerings, all uncirculated, of course. The asking price for the \$500 note was \$56; for the \$100 note, \$13.50; and for the \$50 note, \$9. Proof \$3 gold pieces of 1882, 1883, 1885, 1886 and 1888 sold for \$8 each. For some unknown reason the 1879 with a mintage of only 30 pieces was offered for \$1 less! A whole series of the earlier 3¢ nickel pieces in proof were for sale at 45¢ each; this included the 1865 which sells for about \$500 or more today and is a recognized rarity. And finally, the 1853 quarter dollar without arrows and in new condition was offered for \$18.

Yes, 1924 was a good year. But then, as far as I am concerned, each year is better than the one before.

CATALOG

In the preparation of any catalog the researcher must consider what sources to use and which to disregard. The older numismatic works of nearly every nation have had those writers who made errors of varying importance or invented coins solely for their own amusement. Russian numismatics, both past and present, is no exception; the work of V. I. Petrov (1899) is a perfect example of this for it has a number of coins listed which simply do not exist. Unfortunately this has not been generally realized and certain of Petrov's non-existent pieces have crept into modern literature. It is important to note the numismatic work free of major or minor error does not exist and probably never will.

The case of Petrov is particularly dangerous to the study of Russian numismatics as it was written in French as well as Russian. The average collector in the Western world is able to read French to a certain extent enabling him to use the Petrov book. However, the same average collector can hardly read any slavic language which rules out the use of all the excellent references in that tongue. Thus the language barrier and the general rarity of certain texts has effectively barred the brilliant scholarship of such men as Ilyin, Tolstoy, Chizhov, Giel, and Spasskii from the use that they deserve.

It has long been believed that a catalog should be written on Russian coinage which listed the pieces in a totally new manner combining certain features of the classical Russian school of the late czarist period with modern American numismatic techniques, using the well-known *Red Book* as a model.

This catalog makes a radical departure from the earlier classical works in that the differentiation by reigns is eliminated and the coinage is presented strictly by denomination. Some collectors have expressed surprise that the traditional system should be dropped, but the author feels that the average collector of today is more interested in type coins than any other consideration. In addition, only the most wealthy of collectors could afford to collect Russian gold coins by date and minute variety.

From the above premises the present catalog has been written with as much care as possible. First, and foremost, the basic references had to be chosen upon which to fashion the catalog. The time periods and basic works consulted are as follows (see bibliography for exact titles, etc.):

1682-1696	Romanov, supplemented by Spasskii and Schubert
1701-1719	Romanov
1720-1725	Giel, supplemented by Chizhov
1725-1801	Ilyin and Tolstoy
1801-1904	Giel and Ilyin
1905-1915	Garshin
1921-1952	Fortinskii

After the basic lists of coins were made, other references (including Severin) were consulted for pieces not listed or conflicting with the trial list. From this trial-and-error approach the catalog has been constructed.

One of the more important tasks has been to completely translate all inscriptions into meaningful English. It was also deemed essential to discuss the metrological aspects of the Russian gold coinage by giving the weights, finenesses, diameters, and other such information as would be of value.

In order that the catalog be of value to the collector, the minute varieties found listed in the older Russian standard works have been drastically reduced. This catalog lists only the major varieties and those with some historical value. A case in point is the 1712 ducat. There are thirteen known varieties some fairly minute. Here only seven are listed. Anyone interested in pursuing the minute varieties prior to 1720, for example, should consult the Romanov work on Peter I (1682-1710) and the plates for 1711-1719.

NOTES ON THE CATALOG

In any catalog dealing with the coinage of Russia, it is necessary to present a number of tables to properly introduce and aide in the use of the listings. The language barrier and certain other factors make this a necessity.

Mints and Mintmarks

On the early gold pieces (1682-1696) only those struck from silver dies bear a mintmark. It was not until 1755 that mintmarks were introduced and they were abandoned on the gold in 1886.

Mintmasters

Russian silver coins began in the mid-eighteenth century to show the initials of the men in charge of that coinage. It was not until 1796 that the gold was similarly honored. Until 1885 the initials were found on one of the faces of the coin, usually by the eagle's tail. After that date for the gold they appeared only on the edge, as part of that inscription. Starting in 1865 the initials were the same for both silver and gold; prior to that time they were different. The initials, proper names, and dates of tenure for the gold mintmasters follow:

Coin Edges

The coins of Russia possess a bewildering variety of edge markings, mostly designed to baffle the counterfeiter and perhaps the collector as well. Prior to 1917 Russian numismatists had the listing of edges down to a fine science by giving each one a number and showing that number with the coin. By placing either a circle or a diamond around a number, the edge was identified as an original coin or a novodel. Thus an original coin with edge 3 might be shown as ③ while the restrike would appear as ⬡3. The following edges are found on the Russian gold coins of 1682-1925:

0 Plain edge

4a FINE GOLD 1 ZOLOTNIK 34.68 DOLIA

4b FINE GOLD 2 ZOLOTNIKS 69.36 DOLIA

4c FINE GOLD 1 ZOLOTNIK 78.24 DOLIA

4d FINE GOLD 6 ZOLOTNIKS 77.4 DOLIA

Note: Edges 4a-4c and 7 contain mintmaster initials.

Engravers

Many Russian gold coins show an engraver's initial or initials. This practice lasted until 1894. The initials, dates and names are as follows:

G	1710-1712	Gouin
IL-L, L-L	1707-1710	Jean Lang and Jean Lefkin
D-L	1712-1713	Jean Lefkin
L	1718	Jean Lang
3	1714	?
TI	1762-1796	Timofei Ivanov
GUBE F	1836	Heinrich Gube
АГ	1888-1894	Avenir Griliches

Fineness

Prior to 1886 the fineness of Russian gold coinage was stated in 96ths. The Russian pound consisted of 96 zolotniks and if the pound of alloyed gold contained

93 zolotniks of pure gold, then the fineness was said to be 93. In 1886 the decimal system was adopted. This catalogue shows the fineness that was in use at the time of the coin being struck. The equivalences follow:

94 2/3 = .986 7/18	88 = .916 2/3
94.1 = .980 5/24	86.4 = .900*
94 = .979 1/6	75 = .781 1/4
93 = .968 3/4	* after 1885

Rarity

The rarity scales used in this work are based on those published in Russia prior to 1917 and found in the standard references by Giel, Ilyin, Tolstoy, and Garshin. Due to the lapse of time and the scattering of coins, the rarity positions have been increased. Although the majority of the coins are called *common*, it should be noted that no Russian gold coin prior to 1897 can truly be called common in the modern sense. For dates prior to 1806 this is even more true. The rarity symbols used in this catalog and their meanings are as follows:

·	Scarce
—	Rare (R)
⋮	Very Rare (RR)
÷	Extremely Rare (RRR)
⋮	Of the Highest Rarity (RRRR), 1-3 known

Weights and Diameters

The weights found here for the regular issues are theoretical only and actual specimens will probably vary slightly from the norm, especially for the earlier issues. The weights and patterns of novodels, unless of importance, are not recorded here. The diameters have been measured from actual specimens where possible; as with the weight, they will vary from specimen to specimen.

Eagles

To avoid repetitious description of the eagles appearing on the coinage, the general appearance is described here by periods. The exact form of the eagle may be determined from the appropriate photograph.

- 1701-1831: triple-crowned, double-headed eagle of the Byzantine style. St. George slaying the dragon is found on the central shield on the breast. From 1730 a chain of double-headed eagles is found around the central shield. This chain represents the order of St. Andrew while the shield with St. George stands for Moscow.
- 1832-1858: similar to above except that each wing contains three shields or coats-of-arms. On the left, from the top, are the arms of Kazan, Astrakhan, and Siberia, while the right holds those of Poland, the Tauride (Crimea), and Finland. St. George faces to the right, as on the preceding style.
- 1859-1911: as preceding except there are four shields on each wing and St. George faces to the left. On the left wing are the arms of Kazan, Poland, the Tauride, and, on one shield, the arms of Kiev, Vladimir, and Novgorod. On the right side we find those of Astrakhan, Siberia, Georgia, and Finland.

Overdates

Overdates, in which the date has been changed in the die itself, are listed when known. In some cases the only variety known is an overdate; if the exact underdate is known, it is listed. It is certain that many remain to be discovered by inquiring numismatists.

PART I

MEDALLIC GOLD COINAGE OF 1682-1696

Note: All original coinage of this period is plain-edged and was struck at Moscow. The fineness was probably 93 while weights are given where known. A ducat of full value for this period should weigh 3.47 grams; fractions and multiples may be calculated from this for the appropriate theoretical weights. Although the novodels copy the designs and edges, the weights are not necessarily correct. *It should be assumed, unless proven to the contrary, that any specimen of these types offered for sale is a novodel of a much later period.* In the following lists the Romanov No. is the appropriate listing from the work by the Grand Duke Georgii Mikhailovitch.

Type I, 1682-1684

A1.

Obv. Eagle within a double-lined border of dots and dashes.

Rev: Eight line legend, CZARS AND GRAND DUKES IVAN ALEXIEVITCH AND PETER ALEXIEVITCH AND THE GREAT EXALTED CZARINA AND GRAND DUCHESS SOPHIA ALEXIEVNA, RULERS OF ALL GREAT, SMALL, AND OTHER RUSSIAS.

At least one novodel in copper is known of this series.

Novodels may exist of this type.

Type III, 1687-1689

A9.

Note: Of the Russian gold pieces struck between 1682 and 1696, the novodels of type III are the most likely to be seen.

Obv: The same initials as on type II, but the eagle is replaced by the facing busts of Ivan and Peter, the co-czars. There is a small, shieldless eagle above the heads.

Rev: As on type II the eagle is replaced by a facing bust of Sophia holding a scepter. The latter is meant to show that she held the actual reins of power.

The weight for No. A13 is theoretical; the listing is from the Hermitage Sale — No. 90. No further information is available, but it is possible that the catalogers of the sale mistook this for No. A15 below.

A24.	1/10 Ducat	.33-1.45 grams		÷ Novodel
A25.	1/10 Ducat			÷ Novodel

No.A25 has a six-line inscription; other novodels of this type may exist. All known novodels are of the Denga type, i.e., the czar is brandishing a saber in his hand. Of the originals there were two known of type VI and one of type V in 1914.

Mule (Novodel)

A26. In the Bank Leu *Russlands* sale of 1968 will be found a mule of the period. The obverse is in imitation of pre-1682 designs while the reverse is similar to type I. The weight is given to 5.59 grams. The abuses so inherent in a system of novodels are well illustrated in these mis-matched dies.

PART II

Note: All original ducats dated prior to 1755 were struck in Moscow.

virgil hancock's FEATURING FAKES

"Concoctions and counterfeits" could be the title of this month's exposé. And all are from China.

Above, you see a silver concoction, sold to an American collector with the story that this was a rare, dollar-size companion piece to the genuine, officially-issued, imperial silver rupee of Sze-chuen Province of around 1903 AD.

The Sze-chuen rupee (Kann 585), showing the head of China's Emperor Te Tsung (nien hao, "Kuang-hsü"), was designed to copy and supplant in Sze-chuen Province the popular Victoria Empress rupee of India.

This dollar-size job was designed by some Chinese sharpie just to liberate collectors from their cash. Kann lists it as B-29 and calls it a "fantasy" ... but I call it a "concoction." ("Fantasy" has a harmless connotation, "concoction" conveys the cheating for which this piece was concocted!)

Below, you see another concoction coming out of China: Kann's "fantasy" B-84 sold with the story that this was a Sin-kia ng Province (Chinese Turkestan) silver liang (or tael, a Chinese ounce) coined to pay the army. On its reverse, center, at 12:00 o'clock "Hsiang" ("pay"), at 6:00 o'clock "yin" ("silver"), at 3:00 o'clock "yi" ("one"), and at 9:00 o'clock "liang" ("ounce") ... "Pay silver one ounce."

Each of those two concoctions has sold for around US \$300.00, a tidy sum for a few bucks' worth of silver and a good story!

Unfortunately, those and many other concoctions are going to become legitimized as their new owners rationalize, "Well, who's to say it wasn't used as a coin?" And then someone will write a plausible explanation of it and, next thing you know, it'll show up in some coin catalog as "legit."

From what I've heard of the pay to soldiers in those days of China's provincial warlords, their men were lucky if they had a few dried fish dangling from their back and, maybe, some bullets for their guns.

At the top of this page is a cast counterfeit of what Kann calls "The First Formosa Dollar" (Kann No. 1), also known as "The Old Fellow" (the god of longevity).

For every genuine Kann No. 1 in existence today, there must be a thousand counterfeits in the USA alone. Kann lists this counterfeit as "F-1." Don't be fooled by the fact that some specimen may bear two incused countermarks, as did the original, for countermarks pose no problem for the counterfeiter.

And, at the bottom of this page is a counterfeit of Kann 900-A, the 1856 liang (tael) made and issued by imperial approval in Sg ang-hai by the native banking firm, Wang Yung Sheng.

There were three other native banking firms also issuing silver liang or tael coins, almost identical except for change of banking firm name and name of the silversmith doing the work.

That those coins were sanctioned officially is indicated by "Ch u Y ü a n-y ü, supervisor" appearing on all four coins, reading down the column to your right on the reverse (photo below, to your right).

These pieces were called "tsao-p'ing" (literally, "shipping weight"), and their purity was stated on the obverse, reading down the column to your left, "tsu-wen yin ping" (literally, "enough quality silver cake").

Unfortunately, counterfeiters promptly got to work, using less silver, and within six months all four bankers went out of the coining business!

So far all the Powell pieces have been traced except for 1749, 1760. It must be assumed that these too will eventually be reported. FIRST GORHAM MINT NUMISMATIC COLLECTION

— JOHN ADAMS —

The Gorham Mint has announced its first collection of sterling silver medallions created specifically for the serious numismatist. The first edition is limited to 5,000 sets with no other editions planned.

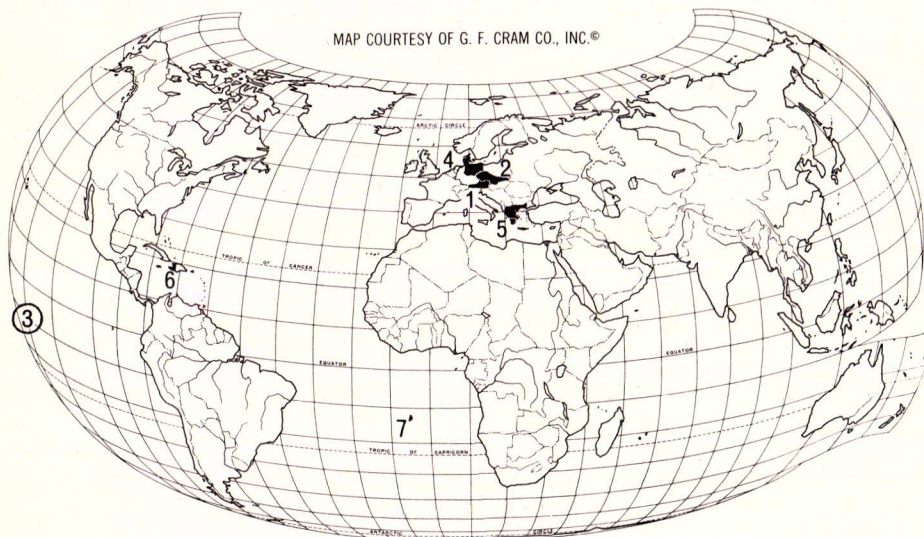

These new 38mm medallions pay homage to those singular men, the patriots who led the independence movement. The obverse is a high relief portrait of the most prominent patriot from each of the thirteen original colonies. His own words and signature accompany his portrait. The reverse of each medallion shows the official seal in use during that patriot's lifetime of that man's home colony. The complete collection is contained in a serially numbered collector's case accompanied by descriptive brochures concerning each medallion.

The Gorham Mint's "First Thirteen Colonies Collection" may be ordered directly from The Gorham Mint, Providence, Rhode Island 02907. It is available on a subscription program for \$13.50 per medallion, shipped one each month, or for a one-time payment of \$150.00. Both prices require the addition of local state sales tax.

Additional information can be obtained by writing to W. Dan Lemeshka, The Gorham Mint, Providence, RI 02907.

NEW & RECENT ISSUES

By Ernst Kraus, LM 129

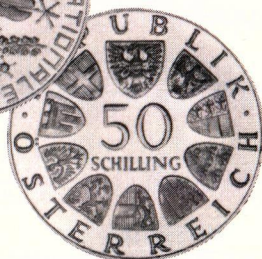

It is the important duty of *The Numismatist* to record and illustrate new coins. To accomplish this, ANA members in the United States and abroad are invited to submit new issues to Ernst Kraus, Room 939 (include room number in address), 393 Seventh Ave., New York, N.Y. 10001. Coins will be photographed and returned as soon as possible, and a credit line will be given to anyone assisting.

ALEXANDER GRAHAM BELL

A medallion commemorating the invention of the telephone one hundred years ago and honoring its inventor, Alexander Graham Bell, was recently commissioned by the Maple Leaf Chapter of the Telephone Pioneers of America and struck by the Lombardo Mint.

The obverse of this 1½" commemorative was patterned after a portrait sculptured by Spicer-Simpson for the National Geographic Society. The inscription reads "Alexander Graham Bell." The Bell Homestead in Bratford, Ontario, is pictured on the reverse. The sculptor is Arnaldo Marchetti.

The medals are available in antique bronze for \$4.00, in pure silver proof at \$14.00 and in 24 carat gold at \$350.00. Because of government regulations, gold medals can not be shipped to United States collectors. Gold medallion orders from other countries will be struck on special order. A minimum of four weeks should be allowed for delivery.

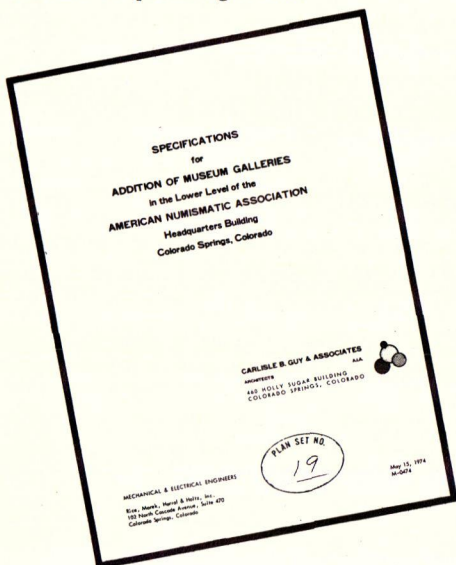

Orders should be directed to the LOMBARDO MINT, Box 203, Sherbrooke, Quebec, Canada, or the LOMBARDO MINT, Box 525, Derby Line, Vermont 05830.

Museum Directions

by Arthur M. Fitts III, Acting Curator

Progress is an important product and the giants of industry have nothing on your Association. It is especially gratifying to be able to report the progress toward construction of the new exhibition galleries for your museum. First reported in the March issue of *The Numismatist*, in the intervening months, this project has been given careful scrutiny by several interested parties; the results should be pleasing to all.

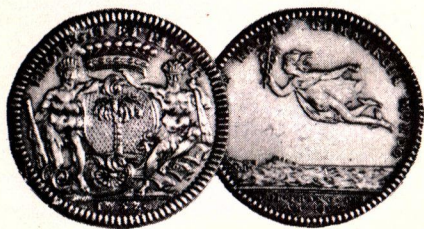

It took less than two minutes to decide the fate of this ambitious project as, at 4 p.m., Wednesday, May 29, 1974, eight men met in the office of Colorado Springs architect Carlyle Guy. He designed the original headquarters building. With the cooperation of his associate, Ted Locke, the Franklin Mint Designer Tim Carter was able to adapt his original ideas to the restrictions of the city building code and the limitations of the building itself. Finally, after months of discussion and compromise, frustration and accommodation, came the moment of truth.

The scene was somewhat reminiscent of the excitement created on

television spectacles as Mr. Locke reached for the first envelope. All the parties present — three potential contractors and their agents, Executive Director Rochette, Acting Museum Curator Arthur Fitts, and Museum Committee Chairman Bill Henderson — were vitally concerned as the sealed construction bids were opened. Whose bid would be accepted? Would any of them be within the financial capability of your Association? The firm of Bruce Hughes, Inc., estimated seventy-five days for construction at a cost of \$89,000. Bill Henderson, who is also ANA treasurer, noted the high reputations of all the bidders and recommended acceptance of that bid.

Construction will not, of course, begin immediately. Final approval from the city must first be secured, as well as the final signing of the construction contract and the sorting and dispersal of much that is presently stored in the Headquarters' basement — a near monumental task. Nor is the final bill for the project to be much under \$120,000; there is an additional contract for expanded security coverage to be let, not to mention the cost of display cases themselves. Being constructed to the specifications of the Franklin Mint which is currently simultaneously building five identical sets for their expanding museum system, these are estimated at \$20,000. Most of the money needed is presently available to your Association, thanks to the acknowledged generosity of the Franklin Mint and Paramount Inter-

national Coin Company; the rest is expected to come from loyal and interested Association members, and a possible foundation appeal.

Among recent donations to your museum is a superb set of *Jetons Pour les Colonies Françaises de l'Amerique* originally struck in the mid-eighteenth century to be used in Canada. This set of twenty-one pieces after the original designs by Marteau, Roettiers and Duvivier is not of contemporary restrikes; housed in their handsome leather case they were struck in the mid-nineteenth century at the Paris Mint. Each of eight types is represented in bronze, silver and gold and as such constitute a most interesting and valuable research set for those interested in early Canadian numismatics. We are very grateful to Mr. R. Henry Norweb, longtime

benefactor of the Association, for this and many other outstanding donations.

Virginia Culver, ANA president; John Jay Pittman, ANA governor; Kenneth Keith, donor of the Kenneth Keith Mexican collection; and Edward C. Rochette, executive director of the ANA view one of the rare coins from the exhibit.

STAFF PHOTO

Benefactors do occasionally visit your museum, as did Mr. Norman Leibman last February. In late May, again coincidental with the display of his material, Mr. Kenneth Keith paid his first visit to Colorado Springs with Bob Medlar, a major factor in securing this donation for the ANA. President Virginia Culver and Governor John Pittman were also present as Mr. Keith viewed with evident pride the display of his Mexican coins.

1ST CONTINENTAL CONGRESS

The 115th coin-medal issued by The National Commemorative Society honors the 200th anniversary of the First Continental Congress. This issue marks the 15th issue in Series III of the Society.

Sculptured by Ernest Lauser, the obverse of the First Continental Congress Bicentennial Commemorative Medal depicts a scene from the first Congress ever held in America. The reverse features Carpenters' Hall in Philadelphia where the Congress convened 200 years ago. Further information is available from: The National Commemorative Society, Box 100, Lansdowne, PA 19050.

NATIONAL COIN WEEK MOST SUCCESSFUL IN HISTORY

The fiftieth anniversary of National Coin Week has been deemed the most outstanding celebration in the history of the event. Thousands of individuals and coin clubs participated; proclamations were issued by President Nixon, governors, mayors and numerous other dignitaries, with clubs doing outstanding work to promote numismatic activities.

A committee is now in the process of reviewing the reports of clubs and individuals who will be receiving the medal specially struck for this event by the Franklin Mint of Franklin Center, Pennsylvania. In addition, medals are being prepared for the sponsors of the more than 1500 new members who applied for ANA membership during this special period. As soon as all reports and tabulations are complete, these awards will be mailed from ANA Headquarters.

During the 1974 National Coin Week celebration, ANA President Virginia Culver and NCW Chairman Maurice M. Gould met in Washington, D.C., to participate with Mrs. Mary Brooks, Director of the Mint, in a series of events recognizing the three winners of the Bicentennial coin design competition. All three designers expressed an interest in the American Numismatic Association; consequently, Jack L. Ahr, Seth G. Huntington and Dennis R. Williams are among those applicants awaiting membership.

Gould stated, "Never in my many years of involvement in National Coin Week has there been so much individual and club participation. The response has been far beyond the ANA's and my expectations and I wish to thank all of the individuals and groups who participated in the Golden Anniversary of National Coin Week."

Numismatic Vignettes

by Glenn B. Smedley

• "You apparently chose to place your loyalty to your superiors above your obligations as a citizen." So spoke Federal Judge Gerhard Gesell to Dwight L. Chapin, former appointments secretary to President Nixon, who had been found guilty of lying to a federal grand jury.

The judge made a simple and straightforward statement that, I believe, should be read, reread and recalled frequently by many a person, whether in or out of governmental positions of trust. For what it's worth, my personal opinion is that most persons elected or appointed to positions of trust are honorable and trustworthy *at the start*. But, as time goes by, the pressure to "place loyalty to your superiors above your obligations" to your constituents becomes stronger — sometimes overpowering.

What's this got to do with numismatics, you say? Ponder that question the next time you are involved in selecting persons to manage your local, state, regional or national numismatic organization. Try to opt for the ones who will follow the old precept: "He noblest lives and noblest dies who makes and keeps his self-made laws." (Verse 37, Book 8, *The Kasidah*)

• "A long position in gold coins may, at their present premium prices, cause the apprehensive investor more sleepless nights than financial comfort." Just one man's opinion, but the one man is noted economist Paul A. Samuelson. His conclusion about hedging against inflation? "There is not much that any prudent person can

do." (*Newsweek*, May 27, 1974)

• "The American Numismatic Association, founded in 1891, has hundreds of members in the United States, and many abroad. Every student of the science of coins and medals ought to join. For 1895 (*The Numismatist*) will be better than ever. When you look over the volume (VII) for 1894, with its 280 and more (actually 288) reading pages and its many illustrations, you can better realize what this means. If you have never seen it, enclose a stamp and a sample copy will be sent you. Address: THE NUMISMATIST, Munroe (sic), Mich." (*American Numismatic Series*, no. 3, by Charles T. Tatman, LL.B., A.N.A. no. 2)

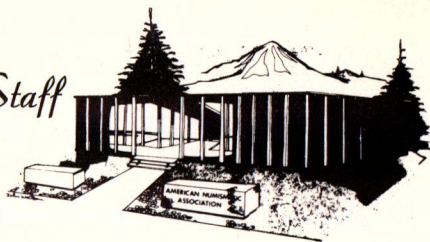

Even then, 90 years ago, numismatists were boasting a bit: "has hundreds of members" and "many abroad." A membership list in the March, 1894, issue included 170 names of which 2 were deceased; 10 of them were in Canada, 6 in England, and 1 each in Brazil, India and Japan.

The ANA library now (1974) needs a copy of the first issue of Tatman's *American Numismatic Series*, titled "Coin-Collecting: an Introduction to the Study of Numismatics."

• If you had a set of mailing labels of ANA members in the United States, including the 50 states and Puerto Rico, arranged in zip code sequence, what well known city would be at the halfway point in the list? A stupid question, you may say, and who cares anyway! Probably very few except those in the membership center of the country — Youngstown, Ohio.

Meet Your ANA Office Staff

Janet Brown

You dial the Colorado Springs number and hear, "American Numismatic Association." The voice you hear is that of Janet Brown, Headquarters' receptionist.

Janet is about to complete her first year as a full-time employee of the ANA. Prior to becoming receptionist, she assisted in the membership department as a part-time employee and participant in Palmer High School's Future Business Leaders of America organization.

Even though you may never have the opportunity to talk on the phone with Janet, she has many additional duties which at sometime may be of importance to you. Everyday, Janet handles over two hundred pieces of mail, sorting all incoming letters making sure they arrive at the correct destination within Headquarters.

Any mail which contains money is retained by Janet until she has logged it on the daily financial sheet. After sorting and delivering the daily input, she then begins the next stage of her workday: mailing medals and awards in response to orders received, answering stationery and jewelry requests, and compiling request lists for certificates and educational awards. If all this isn't enough to keep her busy in between answering phone calls and greeting guests, Janet also handles the installment billings for life members of the Association.

At the present time Janet holds two staff distinctions. She is both the only

native of Colorado and the most recently married ANA employee. Only last March Janet added Brown to her first name.

She and her husband Jim enjoy horseback riding, motorcycle riding and swimming. When Janet isn't outside enjoying the mountains, she is probably indoors cooking one of her grandmother's family-famous Italian dishes or playing with Bojo, the Browns' newly acquired kitten.

Remember, the first smile you see or voice you hear when entering the ANA Headquarters is probably that of Janet Brown, receptionist and ANA member #76549.

KNIFE MONEY

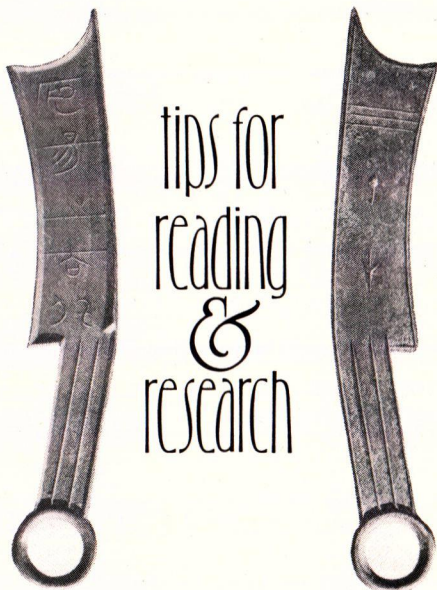

The use of metallic tools, such as knives, fish-hooks, spades and spears, has been employed as a medium of exchange since prehistoric times.

Knife money, called Tao, appeared in China about 600 B.C. and was the first metal replica which could be exchanged for the actual implement.

It was a distinct copy of the original of which there were several varieties that were used for different purposes including hunting, domestic use, or for writing inscriptions on bamboo or bone.

Characteristic knife money has a slightly bent body, a handle having two parallel lines and a ring on the handle end. The earliest were uninscribed; however, they later bore the inscription of the place of issue and a legend.

You may learn more about the varieties of knife money and their inscriptions and legends by reading

the following books which are all available in the ANA library and may be borrowed by members upon request.

Should Know Better?

The "Century Old Notes" on p. 871 of the May, 1974, *The Numismatist*, points up a weakness that is still going on: lack of numismatic knowledge by the non-numismatic press, and the occasional republication without change by some numismatic publications that should know better. For "die" and "dies" read "press" and "presses."

James G. Johnson, ANA 39984

Anyone who read the *entire* "Century Old Notes" feature in the May issue, I am sure, read it for what it was, A CENTURY OLD NOTE . . . 1874. Further, even a beginning numismatist with a minimum knowledge of the coining process would have read "die" and "dies" for "press" and "presses" and would have enjoyed the note for the intended nostalgic reasons. — ED.

LIBRARY BOOK NEWS REVIEWS

The following books are available from the ANA library on a loan basis. People interested in purchasing these should write to the address listed with each book.

For Syngraphists

THE COMPREHENSIVE CATALOG OF U. S. PAPER MONEY by Gene Hessler. 1974. 470 pages, illus. Hard cover. Henry Regnery Co., 114 W. Illinois St., Chicago, IL 60610. \$20.00.

Collectors of paper money issued in the United States will find this new work a delight to peruse and a valuable addition to their libraries for information and research. So far as this reviewer knows, it is the first book on the subject that can use the word "comprehensive" in its title without qualms.

True, it does not attempt to catalog the colonial and continental series of notes or, of course, the pre-Civil War issues of banks and businesses. It does, however, touch on these non-federal types of paper money with explanatory notations and illustrations of typical specimens. Some other areas of paper money are treated in a similar manner, including un-

issued and rejected designs (about twenty illustrations), fractional currency proof and specimen notes, uncut sheets (U.S.), and counterfeits.

In the beginning, the author introduces a newly coined word: *syngraphics* — "the bringing together of bonds and written things." "So," says Mr. Hessler, "from one syngraphist to another, may the hobby and science of syngraphics flourish and advance as it should." No more are we rag-pickers or even paper money collectors — we are syngraphists!

After chapters on a history of paper money (30 pp.) and notes on types of U. S. paper money (15 pp.) comes the main course: a catalog of U. S. paper money (254 pp.). The arrangement is simple — notes are listed in order of their denomination from \$1 to \$100,000, and within each denomination in date order from 1861 to the present. Notes are numbered consecutively in

order of listing, from 1 being the 1862 \$1 United States note to 1498 being the 1934 \$100,000 gold certificate, on to 1500-1636 for fractional currency notes, and 1637-1861 for encased postage stamps.

Each series of Federal Reserve issues bears one number with a suffix letter to designate the district. Proof and specimen fractional notes bear the numbers of the related regular issue notes with the letter "S" added, and uncult sheets of U. S. issues bear numbers corresponding to the notes in the sheets. "Error and Freak Notes" are well covered on twenty-seven pages with some seventy illustrations.

Most of the older notes are priced in three conditions, and an average buying price (ABP) is shown as the "price most dealers will pay for notes in the minimum collectable grades." For example, the \$1 silver certificate of 1896, having values of \$20 good, \$55 v.f., and \$160 new, has an ABP of \$12.50. No prices are shown for denominations above \$100 because "few of us can afford to collect" them. Few of us will argue that premise.

Notes used in the Philippine Islands from 1902 to 1944, in Puerto Rico from 1900 to 1909, and by the National Bank of the West Indies from 1905 to 1934 are illustrated but not priced. Over a dozen issues of military payment certificates, from 1946 to 1970 and in denominations from 5¢ to \$20, are listed with illustrations and values.

Note illustrations are some eighty-five by thirty-six millimeters — large enough to see all features and lettering clearly yet not so large as to waste space. The mechanical features of the book (paper, printing, illustrations, and binding) are of very good quality.

Most first edition books have flaws, some have errors, but I could find neither of a magnitude worthy of mention. Author Gene Hessler and the publisher offer an excellent product which surely will be appreciated and used by the growing fraternity of syngraphists. — Glenn S.

Paper of Paraguay

PARAGUAYAN PAPER MONEY by Dale A. Seppa. 1974. 50 pp. Illus. Obol International, 8 S. Michigan Ave., Chicago, IL 60603. Paper cover \$3. Hard cover \$10.

Paraguayan Paper Money is the first book in any language that deals with the paper currencies of this country in depth. The first issues of 1847 through the 10,000 Guaranies note issued in 1971 are covered, complete with statistics and prices. A high percentage of notes are illustrated, many in color.

The book commences with an introduction which gives highlights of the Paraguayan monetary history and comments on grading and pricing used in the book. This section, while short, is quite detailed and makes note of many facts which were not known to this reviewer. It is quite well researched and will be of interest to anyone who has any interest in Latin American history.

The body of the book is divided into two basic sections and each section into several subsections, making it quite easy to locate exactly what is wanted with no problems. The PRE - 1900 ISSUES are divided into the following subsections: El Tesoro Nacional 1847 - 1865, Misc. Issues 1870 - 1875, Banco Del Paraguay 1879-1882, Banco Nacional Del Paraguay 1883 - 1886, Banco De Comercio 1886, Banco Del Paraguay Y Rio De La Plata and the Republica Del Paraguay issues of 1894 - 1899. The POST - 1900 ISSUES are subdivided into the following subsections: Republica Del Paraguay 1903 - 1943, Banco Del Paraguay 1943, Banco Central Del Paraguay 1952 which of course includes all of the current notes which still bear the 1952 authorization date, and the fractional notes of the short lived Asuncion Tramway Light and Power Company.

The book while technically not a second edition does make use of all of the information from *Paper Money of Paraguay and Uruguay* by the same author. While that book was

well accepted by the numismatic community as the pioneering effort that it was, it will definitely be of no use for the Paraguayan section because of the availability of this much amplified and improved version.

Investing in the Gold Stuff

HOW TO INVEST IN GOLD COINS by Donald J. Hoppe. 1970. 298 pp. Illus. Paper cover. Arco Publishing, 219 Park Ave. South, New York, NY 10003. \$2.95.

With inflation rampant, the stock market and the dollar in a nosedive, prudent men are once again looking to gold as a safe and profitable way to protect their money. And one of the best ways to invest in gold is to buy gold coins. For in addition to the intrinsic value of the metal, coins have a numismatic worth that makes them one of the soundest investments

available. So solid are they that First Coinvesters Inc., a firm in Albertson, New York specializing in the gold coin field, guarantees to rebuy, at the original price, any purchase made from it.

For the man interested in learning more about the investment opportunities in numismatics, either on his own or through a coin investment firm, here is a classic book on the subject.

The book explains coin collecting from the viewpoints of both the investor and the numismatist. It covers thoroughly all facets of collecting including a history of coinage, general economics, the economics of gold, governmental regulations and laws applying to collectors, the technical aspects of gold refining, and the technology and aesthetics of striking coins. It also traces the prices of a wide

Israeli Catalogue Offered To Members at Big Discount

**ISRAEL'S
20 YEARS
CATALOG OF
COINS & CURRENCY**

By Fred Bertram and Robert Weber

The Louis Denberg Foundation of New York authorized the publication of *Israel's 20-Year Catalog of Coins and Currency* in 1968 in recognition of the widening world interest in Israeli numismatics. Profits from the distribution of the book were donated to the Kadman Numismatic Museum in Tel Aviv, a unique museum which illustrates the history of money side by side with the history of Israel.

Fred Bertram, former editor of the *Journal of Israel Numismatics*, and

Robert Weber, former director of the Israel Government Coins and Medals Corporation, worked together to produce this uniquely illustrated catalogue that covered not only the first twenty years of the history of the modern state of Israel, but included the coin and currency issues of the Palestine Mandate, as well.

The 128 page, profusely illustrated, hard bound library edition retailed for \$7.50. The authors donated the remaining unsold copies to the American Numismatic Association and these books are now being offered to the membership at one-half the originally advertised price — \$3.75 each, plus 25 cents postage.

This price is for a limited time only and delivery is subject to the limited amount on hand. Collectors are urged to order immediately bearing in mind that the book will not only make a most useful reference addition to any numismatic library, but can be used for Christmas or birthday presents for friends and collectors.

Clubs are urged to consider this book, at this special price, as an ideal attendance prize or as a gift to local libraries, community schools and synagogues.

variety of coins over the years, discusses the relative worth of various coins from many nations and makes suggestions for investment.

Although major emphasis is on U.S. coinage, there is thorough treatment of the money of Canada, Mexico, most European and some Asian countries. Finally, the book contains model collections at various prices, a glossary of terms and a bibliography for further readings. It's a sound, well researched work, and most worthwhile reading for anyone considering this investment field.

The inclusion of a book in this list does not preclude us from publishing a review at a later date. Far too many new books are received monthly to review immediately and we do not wish to deprive our members of the knowledge of their availability.

Notes & Queries

Society of Medalists Collection

The World Heritage Museum on the campus of the University of Illinois at Urbana-Champaign recently accepted a donation of a complete collection of the medallic art medals issued by the Society of Medalists.

Founded in 1930 by the late art patron George Dupont Pratt, the

Society has, each year since, commissioned two distinguished American sculptors to design a high-relief fine art medal based upon sketches previously submitted to the Society's Art Advisory Board. The concept for each design — its theme or basic artistic message — is never dictated or even suggested by the Ad-

visory Board. The Board's purpose is to insure qualities of skill and merit for inclusion in the ongoing collection.

The Society is a nonprofit, tax-exempt organization which cannot under law sell its medals to those other than members. The membership is limited to 2,500 bronze members with only 500 silver members.

In addition to the bronze collection of eighty-nine high-relief art medals given to the World Heritage Museum, the Society's medals are on display at the Carnegie Museum in Pittsburg, the Corcoran Gallery in Washington, D.C., the Metropolitan Museum of Art in New York, and in such university museums as Columbia, Princeton, Georgia Tech and the University of California.

William T. Louth Honored

William T. Louth, president of Medallion Art Company, has been named by the American Academy of Achievement as one of fifty Americans to receive the Golden Plate Award for 1974. The announcement was made by Lowell Thomas, newscaster and chairman of the Academy's awards committee. The award was presented June 29 in Salt Lake City on the occasion of the organization's thirteenth annual Salute to Excellence weekend ceremony.

Guests at the University of Illinois, World Heritage Museum luncheon examine part of the complete collection of medallion art medals donated to the Museum by the Society of Medalists. Left to right is Georgette Meredith, Museum Director; University Chancellor Jack Peltason; Mary Lou Cram, Executive Secretary, Society of Medalists; University President John Corbally and Oscar Dodson, Museum Director Emeritus and former ANA President.

Louth was cited for his devotion to excellence and quality. His firm has prospered while helping support this nation's sculptural talent. The firm has gained world-wide acclaim as the leader in the production of fine art medals, plaques and awards of distinction. Louth was nominated for the Golden Plate award by the Academy's national selection panel for sculpture.

Among the fifty noted professionals from a variety of fields honored by the nonprofit foundation were actors James Stewart and Lorne Greene; Malcolm Forbes, president and editor-in-chief of Forbes Magazine; Jack Valenti, president of the Motion Picture Association of America, Inc.; and singer-composer Paul Anka. Representatives from the business world dominate the list of recipients.

The American Academy of Achievement is a private foundation, governed and sponsored by prominent businessmen and other professionals and dedicated to the inspiration of youth. More than one hundred high school honor students participate in the program with expenses paid by sponsors. Golden Eagle awards are bestowed upon outstanding students who attend the Salute to Excellence ceremony.

FORUM SPEAKERS NAMED

Entertainment and education, rolled into one grand evening, await collectors attending the 83rd Anniversary Convention in Miami next month. Edward Schuman, educational forum moderator, has announced that three top experts in their respective fields will speak at the Educational Forum.

Scheduled for 8:00 p.m., Thursday, August 15, in the International Room of the Americana Hotel, a capacity crowd is expected to hear the following speakers: Edward Janis, New York City, will lecture on "Political Hard Times Tokens;" Clyde Hubbard, Mexico City, on "A Phase of Mexican Numismatics;" and Paul R. Whitnah, Chicago, on "Young Numismatists Seven Years Later."

Beau Rivage Official Overflow Hotel for ANA Convention

With the Americana Hotel, the 1974 ANA convention headquarters, fast reaching complete occupancy for the August 13 thru 18 meeting, the neighboring Beau Rivage Hotel has also been selected for ANA conventioners.

The Beau Rivage, Bal Harbour's newest and finest resort hotel, is but a mere 403 paces from the Americana. Genial Bob Hendershott, general chairman of the 1974 conclave, measured the distance personally in order to dispel any apprehensions that conventioners might harbor. Whether you stay in the Americana or the Beau Rivage, guests will all be housed within a half block of one another. The special rates arranged with the Americana Hotel will hold for those accommodated at the Beau Rivage, but reservations will still have to be made through the Americana. When making reservations be sure to either use the official card available through the convention committee (ANA 83rd Anniversary Convention, P.O. Box 610-426, North Miami, FL 33161), or if you write directly to the hotel be sure to mention that you are coming for the ANA convention.

Those writers receiving honorable mention are awarded certificates of recognition.

The author receives two copies of the issue in which his article appears and eight individual article copies.

MANUSCRIPTS

The *Numismatist* accepts manuscripts which contain new information, constitute a distinct contribution to knowledge and are relevant to the science of numismatics. The author is responsible for all statements made in the work. Manuscripts accepted and published become the property and copyright of *The Numismatist* and may not be published elsewhere unless written permission is granted by both the author and the journal. Manuscripts are received with the understanding they are not simultaneously being considered by other publications.

Two complete manuscripts (the original and one copy) including illustrations (all material which cannot be set in type such as photographs, drawings and graphs) should be sent to EDITOR, *The Numismatist*, American Numismatic Association, P. O. Box 2366, Colorado Springs, CO 80901. For correspondence purposes the author should retain at least one copy.

The manuscript should be typewritten, double-spaced on one side of 8 1/2 x 11 heavy white bond paper with 1 1/2 inch margins at the top and left. The name(s), full postal address(es) and daytime telephone number(s) of the author(s) must appear on the first page.

Each illustration should be accompanied by a legend with all legends and reference numbers typed and grouped on a separate sheet of paper. All illustrative material should be protected with hard-board covers when mailed.

Photographs are to be unmounted and unattached to the manuscript. They should be high quality, glossy prints which are not retouched or labeled in any way on the face of the photograph. (When marking on the back, write on a hard surface such as glass or metal to avoid disfiguring the photographic surface.)

Drawings should be on separate sheets, drawn with India ink on illustration board or high grade drawing paper.

The editorial staff reserves the right to edit all material to conform with the journal's style and policy.

AUTHOR'S BIOGRAPHY

professional experience, hobby interests and numismatic awards and accomplishments. A photo, suitable for publication (a glossy portrait rather than snapshot), should accompany this information.

REFERENCES

Only sources closely related to the author's work should be quoted; exhaustive lists should be avoided. Accuracy is important. The suggested guide for reference preparation is *The MLA Style Sheet* (a Modern Languages Association publication) in which the following are basic examples for first references to books and periodicals:

¹ Robert Andrew Glindinning Carson, *Coins of the World* (New York: Harper & Brothers, 1962), p. 347.

² Allan Sutherland, "Scottish Coins and Emblems," *The Numismatist*, 51 (1938), 193.

Subsequent references to the same works can be made by citing only author and page number:

³ Carson, p. 348.

If more than one work by the same author has been quoted, a brief title and page number are sufficient:

⁴ *Coins of the World*, p. 348.

This information is offered in the spirit of aiding prospective authors prepare a more professional manuscript, thus assuring *The Numismatist* of a greater volume of publication-ready, editorial material.

"WHAT OUR CONSIGNORS SAY"

When we sold the Armand Champa Collection at public sale, Mr. Champa, one of America's most prominent numismatists, was so pleased with the results that he did something unprecedented in the annals of numismatic auctions: completely unsolicited by us he placed large advertisements in "The Numismatist" and other leading publications to thank us for our service:

"Thank you Dave Bowers and Jim Ruddy for the excellent handling of my coins through you American Auction Association. I was very well pleased with your wonderful descriptions of my coins, especially the patterns. The prices realized for my coins NEARLY DOUBLED the offers I received from other dealers."

We think that the comment that our auction sale results NEARLY DOUBLED THE other offers received is especially significant.

Recently another consignor, Dr. Bernard Bressler, of the Duke University Medical Center (Durham, North Carolina), wrote to say:

"I am most appreciative of your sending me the check and the results from your last auction. I am MORE THAN SATISFIED with the proceeds. I want to congratulate you on the BEAUTIFUL CATALOGUE and the BEAUTIFUL RESULTS."

Considering the sale of your choice coins, sets, or your entire collection? James F. Ruddy and Q. David Bowers offer you the finest auction service in the rare coin field today. Consider the advantages that a combined public and mail bid auction by our American Auction Association division offers you:

Yes! World-Wide buys coins. And it's only by paying more than other dealers that we have been able to purchase a \$325,000 and a \$400,000 collection within the past six months.

Perhaps your collection is less than the two we mention here or perhaps it is more. In any case World-Wide Coin Investments, Limited will be happy to make you a firm cash offer. Naturally we will be glad to travel to your city if your collection warrants it.

Oh yes, World-Wide sells coins too. If you would like to receive our catalog of U. S. or World Coins just let us know and we will mail you a copy.

Remember, when you deal with World-Wide Coin Investments, Limited YOU must be satisfied with the transaction or there is no transaction.

THE RESULTS SPEAK FOR THEMSELVES

Sell to us direct,
or let us auction your coins.
Either way, you make more
when you do business
with SUPERIOR.

SUPERIOR WILL PAY MORE FOR YOUR COIN COLLECTION THAN ANY OTHER DEALER

The serious looking people in the photographs above are collectors, investors, and even dealers who are attending an actual SUPERIOR STAMP & COIN COMPANY auction. They have a *proven history of paying record breaking prices* for rare coins.

4. WELL-ATTENDED AUCTIONS

We treat our public (both buyers and sellers) like royalty. Buyers come from every state in the union and many foreign countries. If necessary, we make hotel arrangements for them. We pleasantly, and patiently allow them to view every lot that interests them. Our auctions are a looked-forward to occasion

In 1973 a silver coin at just such an auction produced a record breaking price of \$110,000.00. A twenty dollar gold piece was bid up to \$60,000.00, for yet another record. How does this help you? Simple. The more we get ... the more you get ... and SUPERIOR auctions get more.

Coins consigned to, or purchased by SUPERIOR bring to the consignor, or seller prices far greater than when sold to other dealers. And there are good reasons why doing business with SUPERIOR means hundreds, or even thousands of more dollars in your pocket.

Such as:

1. TIMING

We advise you as to market trends. We have our thumb on the pulse beat of the economy. We know the most opportune moment to publicize and place your coins on the market. We don't conduct spur-of-the-moment auctions. They are well-planned, and well thought out to assure you of extra dollars by selling your coins during peak periods. *Our timed sales mean more dollars for you when you sell or consign your coins to SUPERIOR.*

2. EXPERT CATALOGING

Our catalogs are the envy of our profession. They have literally won awards, both for the professional manner in which they are written and for the graphic reproduction of almost 100% of the coins to be sold. They are printed on the best of papers. No expense is spared in catalog production. As a result, mail bidders can bid with confidence and assurity, based solely on our descriptions and photos. We will be glad to send prospective sellers samples of past catalogs. *These deluxe catalogs mean more dollars for you when you sell or consign your coins to SUPERIOR.*

3. LARGE AD BUDGETS

We have found that it pays to advertise. Months before an impending auction our full-page ad campaign is launched. Numismatic publications, financial publications, and all past buyers are alerted to the fact that SUPERIOR is conducting another auction. Mailing lists of Doctors, business and professional men, collectors and investors are purchased to augment over 10,000 proven names already on our books from past auctions. *Our large ad budget means more dollars for you when you sell or consign your coins to SUPERIOR.*

for old friends to meet and new acquaintances to be made. There is hardly ever an empty chair at a SUPERIOR auction. And they have all come for one express purpose ... to bid "top dollar" for your coins. *Our well-attended auctions mean more dollars for you when you sell or consign your coins to SUPERIOR.*

5. WE ARE PROFESSIONALS

You will immediately be installed with a feeling of confidence and well-being when you sell or consign to SUPERIOR. We are professionals, and we know the coin business. Since rare coins are only available from collectors, and since it's a sellers market, SUPERIOR has to make you a "better offer". The last thing we want is for you to sell to a competitor. We won't let this happen. *The same professionalism enters the picture when it's time to sell, this means more dollars for you when you sell or consign your coins to SUPERIOR.*

6. PURCHASING POWER

When we purchase your collection you will receive *immediate payment*. If you elect to consign your coins you can receive an *immediate liberal advance*. Whatever your preference you will be doing business with knowledgeable people. We need your coins ... and we'll pay "top prices" for them.

When you consign your coins for auction you will receive a contract that fully protects you. Your coins will be placed in maximum security vaults and fully insured. You will receive an inventory list of each and every one of your coins. Our auction will be conducted in our spacious, comfortable 250 seat auditorium, right on our premises. A professional auctioneer will auction your coins. At SUPERIOR, under one roof, everything and everybody will be working for you. The higher prices realized at SUPERIOR may put your name in the "Red Book". No collection, be it king's or common man's is beyond our purchasing power ... and we use our own capital not borrowed money. *This purchasing power means more dollars for you when you sell or consign your coins to SUPERIOR.*

Bonner Did It! Ruby Did It! Harold Lloyd Did It! Claveria Did It! Gilhausen Did It! Pradeau Did It! Major Banks Do It!

WHY DON'T YOU DO IT!

The individuals above all elected to dispose of their collections through SUPERIOR. Obviously, after years of collecting, these knowledgeable, important and famous people, who could have sold or consigned their coins to any major dealer chose SUPERIOR. Why? Simple! Just read items 1 through 6 one more time. They add up to MORE DOLLARS FOR YOU WHEN TO SELL TO SUPERIOR.

The Record Speaks for itself!

WANTED

America's best buyer of Rare coins urgently needs your collection!

As one of America's foremost Rare Coin firms the demands on our inventory are extensive, requiring us to purchase Choice and Rare Coins at an ever expanding rate.

We Want To Buy: Your entire collection is urgently needed no matter what the size, if it contains the items we are looking for. Generally we are interested in any collection which contains Choice and Rare coins and early U. S. coins in AU or better condition.

Individual Coins: We are sincerely interested in individual sets and single coins as well as complete collections. We are particularly interested in worthwhile numismatic items that retail over \$10.00 each. Our needs range from Colonials thru Gold including rare dates as well as more common dates in Choice condition.

Selling to US: You will find that selling to our Rare Coin Galleries is easy and safe. Here is all you do — Package your coins carefully and send them to us by insured or registered mail. Immediately upon receipt of your coins David Bland, Jr., will personally examine your coins and send you our generous offer in the form of a confidential insured check. Upon receipt of our offer you can notify us of your decision to sell (nearly every one of the thousands of offers we have made over the past decade has been accepted). If for any reason you decide not to sell, your coins will be returned to you by insured mail at our expense. If your collection is too large to mail please send an itemized inventory to the attention of David Bland, Jr., and we will travel to you if the size of the collection warrants it.

You Will Receive More For Your Coins: Because our needs are so great at this time we will pay more than any other major dealer in the U. S. Why not sell to us as thousands of other satisfied collectors have.

For references you may apply to any numismatic publication or numismatic organization. We are members of: The American Numismatic Association (Mr. Bland is Life Member 677); Professional Numismatists Guild; Texas Numismatic Association; etc.

ANNOUNCING A NATION-WIDE BUYING SERVICE

If you are seriously considering selling your collection, we need to buy it. During the past year, our retail sales have increased by over 70%. What does this mean? For us, it means the pleasure of serving you with our continued quality service, and lowest possible prices. For you, which is even more important, (because without you, we would not be here) it means the intrinsic satisfaction of securing another rare numismatic item.

However, in order to satisfy the ever growing numismatic fraternity, we are embarking upon a nation-wide buying service. You will notice that we have stated service. Why? Because it is this company's policy to treat you in the same fair and upright dealings when buying your coins as we use when selling ours. It is for these reasons that we feel our buying service will be something new and innovative for the entire numismatic fraternity.

Here is what our nation-wide buying service provides:

1. Instant cash (confidential, of course, if you wish).
2. Bank references available (contact Mr. Bill Whitsitt at Texas Bank & Trust, One Main Place, Dallas, Texas).
3. Call us collect at 214-748-4044 if you desire to sell a large collection, or you may ship your collection with invoice to Mike Follett Rare Coins, Plaza Level, One Main Place, Dallas, Texas, 75250. Within 24 to 48 hours, you will receive our generous offer by return mail.
Should you decide not to sell, we will return your coins immediately upon hearing from you. Of course, they will be fully insured and we will pay the postage. (During the past year, 82% of those who have sent us coins in this manner have sold their collection). Through this method you risk absolutely nothing.
4. We can be at your bank, home, or office anywhere in the USA within 24 hours of your call provided your collection warrants.

5. We will buy your entire collection, not just the choice material.
6. You will be selling to a coin retailer, not a middle man; therefore, you are assured of the highest possible price.
7. You will be selling to a company backed with 11 years' experience in buying and grading numismatic material. Your coins will be personally evaluated by Mr. Follett before purchase.
8. You will be negotiating with a company well received and respected throughout the numismatic world.

We are in particular need of the following numismatic items: All choice type material, early Bust dollars and Bust quarters in any grade, all key and semi-key coins with a wholesale value of \$10 or more, scarce and rare dates in seated quarters or halves, and all USA and foreign gold both rare and common. Without assuming an air or ostentation, this company has marketed twelve coins with a retail value of over \$5,000 each during the past year. As an indication of our high buy prices, we are paying above the 1973 *Red Book Catalogue* for the following items:

All BU Half Dimes From 1794-1837
All BU Dimes From 1796-1838
All BU Quarters From 1796-1838
All BU Halves From 1794-1840
All BU Bust Dollars 1794-1803
1834-1839 Quarter Eagle Gold BU
1854-S Quarter Eagle Gold BU

In closing, it is the goal and purpose of this numismatic enterprise to serve you — the Numismatist. For the thousands of you that have bought from us, we say thank you. For those of you who have sold to us in the past, we encourage you to continue. For those of you that we have yet to meet, we want to know you. Drop us a line and tell us what you have for sale. We feel that our nation-wide buying service will go further in meeting your individual needs than any other buying program offered today.

Thank you.

SOUND ADVICE IS WORTH THE PRICE

You CAN buy experience! Ours. Now, in our 45th year as professional numismatists, we are helping more and more collectors and dealers, too, with their numismatic problems.

ROLL SET OF KENNEDY HALVES

- Do you know what a BU roll set of Barber Halves would be worth today — IF you could find one?
- Or how about a BU roll set of Liberty Walking Halves from 1916 to 1947?
- We do know that a short BU roll of Walking Liberty Halves from 1941 to 1947 sells for about \$7,500.00
- Or how about the popular Franklin Half dollar series, a BU roll set of these is worth \$4,000.00 today.

So we say why not get in on the ground floor now with a roll set of Kennedy Halves from 1964 to 1973. This roll set is sure to follow in the foot steps of its predecessors.

WE ARE OFFERING CHOICE ROLL SETS OF KENNEDY HALVES WITH ALL DATES AND MINTS AS FOLLOWS INCLUDING THE LOW MINTAGE 1970-D AND ALL PROOF ISSUES

1964 Silver	1968-D	1970-S Proofs	1972-D
1964-D Silver	1968-S Proofs	1971	1972-S Proofs
1965	1969-D	1971-D	1973
1966	1969-S Proofs	1971-S Proofs	1973-D
1967	1970-D	1972	1973-S Proofs

For a limited time only, we offer 1 each of the 20 rolls, BU and PROOF for only

\$1,145.00

That price may seem high to most, but remember with a roll set you have 20 individual sets. Also the Kennedy Half series is now 10 years old and due for some big advances upward in price. Check your Red Book, or trends and see what a single complete set lists for.

"The source of Wisdom in coin selecting"

**A RARE OPPORTUNITY
TO PURCHASE
A RARE COLLECTION
OF UNPUBLISHED
GREEK IMPERIAL BRONZE COINS.**

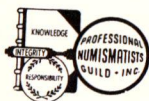

The collection consist of 51 pieces, all attributed as to the Emperor or Emperess portrayed, and the Greek City on "Roman" Province in which it was struck. All the major reference books have been used, British Museum Catalogue, Grose, even the more recent Von Aulock Danish Syllogue.

These are coins that are almost 2000 years old, and are so rare, that they have never in all that time, been listed in a reference work, which works list every known variety of every ancient coin.

This would make an excellent addition to a museum, a scholars collection and yet, the coins are expensive. The entire collection cost only \$2500, which is less than \$50 per coin. Now the discovery of one genuine previously unknown coin in a series such as U.S. Colonials would cost at least the price of this entire collection, but the two can not be compared due to the number of people interested. But the astute observer who sees the huge number of people who are just getting acquainted with ancient coins, and the more recent start in the Greek Imperial Series, will see the investment potential of just putting this collection away for a few years (since that way they will remain unpublished).

So, museums, scholars, investors, or whomever, calls or sends for a list of the coins, and the first check for \$2500 is the new owner of 51 new coins.

...plus South Dakota's historic "first" in medallist art, by the creator of Mt. Rushmore! Celebrated sculptor Gutzon Borglum made a plaster in 1935—specifically for striking as a medallion—of his magnificent Mt. Rushmore National Monument. This is the design he actually intended to be carved on the mountainside, with the four presidents—Washington, Jefferson, Lincoln and Theodore Roosevelt—shown from the waist up. Only their heads were ever completed.

Now South Dakota's State Bicentennial Commission has selected The Lincoln Mint to strike their Official 1973 Bicentennial Medallion directly from the rediscovered original plaster

by Gutzon Borglum!

All six pieces shown here feature the superbly detailed deep relief and lustrous "proof" finish for which The Lincoln Mint is famed. They are the first of four yearly series of Official Bicentennial Medallions. One side of each 1 1/2"-diameter medal will be based on a winning design from the Annual High School Scholarship Contest held through 1976.

Your purchase of any Official Bicentennial Medallion from us helps support that state's Bicentennial program—and entitles you to a free membership in the American Bicentennial Society. Own any medallion either in Solid Sterling Silver, individually numbered, for only \$12.50 (except South Dakota, \$15)... or in Solid Antique Bronze for only \$3.50 (except South Dakota, \$5).

**A choice selection of
RARE COINS
from . . . the Numismatic Gallery**

The Numismatic Gallery has purchased many new and rare coins in the past two months. Many of which are for the quality conscious collector. We have a reputation, at the Gallery, of having some of the rarest coins ever to come onto the numismatic market. We strive toward betterment of collections whether it be a small collector trying to upgrade his Lincoln Cent collection or be it a large museum who wants to complete their pattern collection (which we are in the process of doing), we are here to serve you. If you are interested in one coin that you have been seeking for many years or if you just want to collect rolls of silver dollars, we are just a collect phone call away.

**1794 U.S. SILVER DOLLAR
STRUCK IN COPPER
Judd-18
Unique!**

1794 Silver Dollar struck in copper. Unique and from the famous Judd collection of United States patterns. One of the rarest and sought after coins to ever appear on The Numismatic Market in many, many years. This coin is *The First Silver Dollar ever struck by the United States Government*. This coin was struck with the unfinished die—no stars on right or left borders. Being the only one struck—it was found unsatisfactory since there were no stars representing the states on the coin. After this was decided, the mint struck another 1794 silver dollar with stars on the right and left borders—and thus the mint officials are said to have given the first dollar (the rejected design) to President George Washington—which this being that coin. A once in a lifetime opportunity to acquire a piece of early Americana. Since this coin being the first dollar struck by this country, we believe it to be an excellent investment for the future.

\$100,000.00

**1827 Quarter
Struck in Copper
2 OR 3 Known**

The Restrike. Judd-48. Browning 2. The regular obverse with the reverse B-2 of 1819, both being rusted slightly. Struck with a reeded edge. Extremely rare since there were only 2 known in 1890 at the famous Parmelee sale of which this one is taken from. These being struck circa 1858 by W. E. DuBois or one of the Eckfeldt sons who also sold restrikes and patterns around the Philadelphia area. There are only 8 original 1827 quarters minted, one of which just sold recently at public auction for \$40,000. There are also only about 13 restrikes known to exist and can be purchased for around \$28,000. This coin being offered is a full blazing mint red proof, STRUCK IN COPPER, and is one of only 2 or 3 known, and is twice as rare as any of the silver varieties. \$23,000.

**\$4.00 STELLA
Struck in Copper**

One of the most magnificent Stellas we have ever owned. The obverse and reverse dies were designed by Charles Barber with the head of LIBERTY facing left. The head of LIBERTY has the long beautiful flowing hair and wearing a coronet inscribed LIBERTY. The reverse consists of a large 5 pointed star inscribed ONE STELLA 400 CENTS incused. Struck in blazing red copper, there are only 2 or 3 known of this variety that have not been gilded. This coin is brilliant red in appearance and has a full proof surface. There have not been any on the market in this condition in many years and it will no doubt be many more until you see another of this quality. Rarity 7 (4-12 struck), but Rarity 8 in full blazing mint red copper \$15,000.

If you would like to be placed on our mailing list, please feel free to drop us a post card with your name and address.

2 RARE PROOF \$20's

1. 1902—A beautiful brilliant Proof. Only 114 were minted and a few hardly noticeable hairlines keep this coin from being Choice. With today's strong gold market sure to be a good buy at \$3650.00

2. 1904—Brilliant Proof-mintage only 98 — normal hairlining and a few miniscule surface marks are visible, however, it is next to impossible to obtain a "perfect" specimen of this date. Reasonably priced at . \$3450.00

A jewel in the crown of Canadian coinage: The extremely rare 1966 small beads dollar — this price is brilliant uncirculated with proof-like surface apparent. Slight bagging on reverse keeps the coin from being Gem quality. Our piece is superior to the last one sold at an equal price of \$2300.00

A set of 9 **MATTE** Proof Lincoln cents, including the rare 1909-VDB of which there were only 420 minted. Fully guaranteed and sure to please \$1675.00

A perfect match to the above mentioned set. The five piece series of Choice **MATTE** Proof Buffalo nickels housed in a custom holder. The scarcity of this set is underrated as these coins are quite hard to obtain. Certainly an unusual opportunity. \$1795.00

The truly scarce world gold coins overshadow the mid-range gold coins of current auctions. Here are three seldom offered pieces often overlooked by the auction buyer.

Egypt 1957 5 Pounds Fr. 41 AU .. \$650.00
Italy 1912 100 Lire Fr. 26 AU \$1200.00
Vatican 1950 100 Lire Fr. 289 BU \$350.00

1882 — Choice Proof \$1 — One example of a silver type coin getting very hard to obtain 495.00

1880 — Choice Frosted Proof—Trade \$1. A two-toned appearance on this specimen with almost fully frosted devices. Exceptional \$825.00

The Frontier Mint announces a limited edition of The "Spirit of '76 in the West"

The Frontier Mint, Cheyenne, Wyo., has announced the release of its first Western Historical silver ingot. The design will honor the establishment of the Cheyenne and Black Hills Stagecoach Line in 1876.

The ingot has been sculptured by Barbara Hyde, artist for Medallcraft of California, and features a stagecoach patterned after the 1958 four-cent Overland Mail stamp issued by the U.S. Post Office. On either side of the design will appear the dates "1876" and "1976."

The commemorative silver bars can be purchased separately or as part of a PNC over package. The Wyoming Bicentennial Commission is hoping to arrange a reenactment of the stagecoach run between Cheyenne and Deadwood, S. D., to celebrate the centennial of the gold rush to the Black Hills and the establishment of the Cheyenne and Black Hills Stagecoach Line. A limited number of covers with silver bars will be carried on the reenactment of the run.

The pure silver Proof ingots will be issued in three phases beginning immediately. Phase I will see the issue of 2,500 serially numbered bars at 7.50 each. Bars numbered 001 through 1,000 will be held in reserve for collectors ordering the official Wyoming Bicentennial Commission covers to be carried during the 1976 reenactment of the stagecoach run between Cheyenne and Deadwood.

Phase II of the sale will be to those who did not have a chance to order in prior years. The price will be determined by the price of silver at the time. The balance of 2,500 bars minted during 1975 with a new design authorized by the Wyoming Bicentennial commission.

Pure Silver Sculpture

Each will be minted in high relief with a brilliant proof finish. These beautiful silver bars are the product of hand engraved steel dies by renowned artist and sculptor, Barbara Hyde. Each bar is 999+ fine silver, one troy ounce in weight.

Great Investment Potential

This series of silver bars represents a rare collectors item — not only for its beauty and intrinsic value, but because it is also a First Official Limited Edition. Officially designated.

First Official State Bicentennial Bar.

NOT ALL COINS ARE WORTH THE PRICE

Most coin dealers and collectors you know want to sell you **genuine, unaltered** collectible coins. But all too often the coins are counterfeit or have been altered to appear to be a rare type. For example, many 1916 dimes have had "D" mintmarks added to increase their value by \$100 to \$500. The same alteration has been made on thousands of 1909-S VDB cents, 1892 and 1893-S dollars, and 1942 over 1 dimes. The targets of the counterfeiters and coin alterers are virtually unlimited.

In 1972 the ANA opened its certification service, which is totally devoted to one purpose: protecting you from buying bad coins. Protect yourself by having ANA Certification Service (ANACS) examine your "key" coins soon after you buy them. If they are good, the coins are worth more because you offer a photographic certificate of genuineness with them when you sell them. But if your coins are bad, you have ANA behind you as you request refund on your purchase.

Is ANACS always right? In 98.5% of the cases it is! And if you have **serious** reason to question ANACS's findings, the staff will be happy to re-examine your coin **at no cost to you!**

In a letter or on an ANACS "Request for Certification" form, give the following information:

Your name and address (plus ZIP)

Description of coin(s) to include country, date, denomination, metal, and other data (condition, etc.) which you wish to state.

The value of the coin, if genuine. (Our insurance company **must** have a stated value to determine its liability. This is for your protection as well as ours.)

Enclose a check or money order (payable to ANACS) to cover the costs of authentication, based on your stated value of the coin and on the return postal costs. Compute as follows:

(1) Coin Value	Service Fee
\$ 0 — \$150	\$6.00
151 — 300	9.00
301 — 500	12.00
Over \$500 ...	3% of stated value

If an ANA member, state your membership number and deduct 10% of the base fee.

(2) Postage and insurance for return. When you mail your coins to ANACS, add to your remittance the approximate amount of return postage as determined by your post office clerk. ANACS does not challenge return postage fees as long as they are reasonably accurate.

SIMPLE AS A-B-C! Prepare coin for shipment, provide data on you, your coins and their values, and enclose check for service fee (plus return postage and insurance). It's all explained above.

HASTY SELLING VS. QUICK BORROWING

Selling your collection can be profitable if you have enough time to find the best prices. *But a collection sold quickly is seldom sold profitably.*

In any emergency, borrow the money you need at *Edelman's*. Use your collection as collateral and still retain complete ownership.

At *Edelman's*, you can obtain quick confidential loans for any amount up to 80% of the value of your properties — from \$50 to \$50,000 and more. Take as long as 30 months to pay with a repayment plan tailored to your specific needs. Your collection will be safely protected in *Edelman's* air-conditioned vaults until you reclaim it. Write today for further information.

SILVER BUY DIRECT & SAVE

For "solid" wealth many investors are turning to the "Letcher Eagle." It's ONE TROY OUNCE, PURE SILVER (.999). Each piece is larger than a dollar and certified as to weight and quality. Best of all, this form of silver can be purchased directly from The Letcher Mint at a cost only slightly higher than the New York spot price of silver on the day of purchase. For the first time, individuals as well as dealers can buy this convenient form of Pure Silver at reasonable bulk rates.

Price on a "per Troy Ounce" weight basis in bags, F.O.B. Mint at Lancaster, California:

1000 to 9999	at 75c over N.Y. spot
10,000 to 50,000	at 45c over N.Y. spot
over 50,000	at 27c over N.Y. spot

Shipment generally will be made in less than a week's time via Air Freight, Rail Express or armored car service.

THE AMERICAN BICENTENNIAL MEDALLION

The story of America appears on this significant Bicentennial Medal. A magnificent Liberty carries the torch and laurel wreath on the obverse. In the background is a cannon, reminiscent of the heroic struggle for freedom, as well as Independence Hall, indicative of the Constitution. A plowman takes us back to the struggle of the pioneers, while smoke rising from a factory signifies our present industrial might. The reverse features the American Eagle, poised for flight, peaceful yet ever watchful, and the Liberty Bell, reproduced in minute detail.

THAT TIME AGAIN!

Yes, it is time again for my semi-annual Stock List of MODERN FOREIGN COINS (our specialty). July 1 is the date, and if you will write for this now you will receive it promptly.

If you have had the list before, you may not find it too interesting—but if you have not, and are either a newer collector, or an old timer who missed it, you will find it well worth your while. There are also special lists of ship coins, birds and animals, FAO coins, etc. to add zest to your collecting.

Dealers: Write on letterhead for my new wholesale list, also effective July 1. This contains many thousands of coins, per 10 and per 100, which will make you some money. No charge for any of these lists.

Israeli Catalogue Offered To Members at Big Discount

ISRAEL'S
CATALOG OF
COINS & CURRENCY
20 YEARS

By Fred Bertram and Robert Weber

The Louis Denberg Foundation of New York authorized the publication of *Israel's 20-Year Catalog of Coins and Currency* in 1968 in recognition of the widening world interest in Israeli numismatics. Profits from the distribution of the book were donated to the Kadman Numismatic Museum in Tel Aviv, a unique museum which illustrates the history of money side by side with the history of Israel.

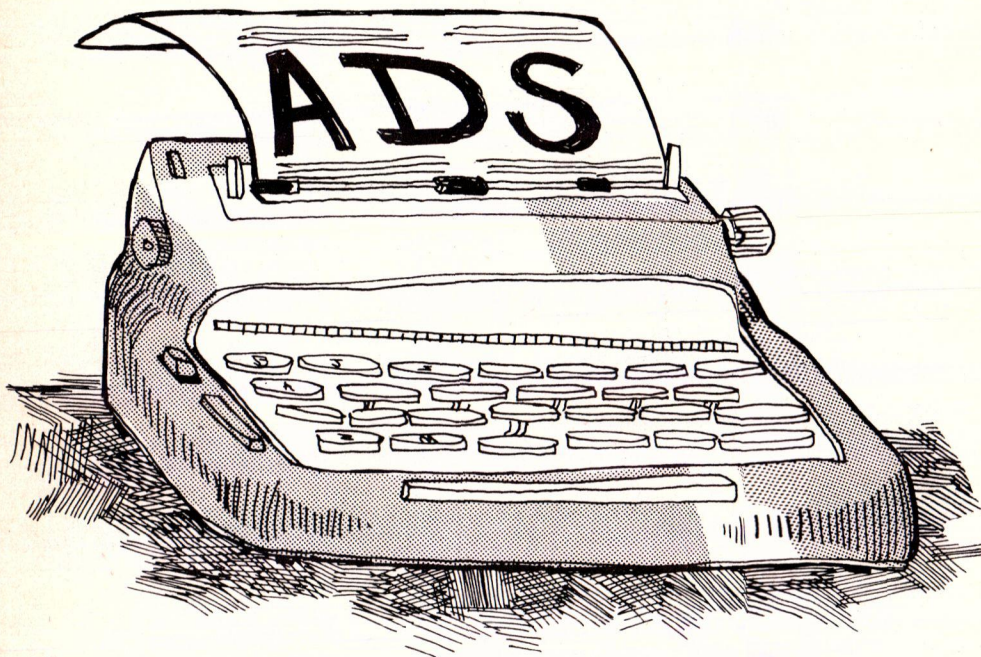

The 128 page, profusely illustrated, hard bound library edition retailed for \$7.50. The authors donated the remaining unsold copies to the American Numismatic Association and these books are now being offered to the membership at one-half the originally advertised price — \$3.75 each, plus 25 cents postage.

This price is for a limited time only and delivery is subject to the limited amount on hand. Collectors are urged to order immediately bearing in mind that the book will not only make a most useful reference addition to any numismatic library, but can be used for Christmas or birthday presents for friends and collectors.

Clubs are urged to consider this book, at this special price, as an ideal attendance prize or as a gift to local libraries and community schools.

DON'T FORGET.

The not so secret ingredient of Whitman's leadership in numismatic publishing

For over thirty years, Whitman has been the foremost publisher in the numismatic field. Currently, the Whitman library includes some twenty-eight authoritative reference volumes; two of these have attained the all-time best seller ranks for non-fiction. What's the secret of Whitman's success? There are two, actually. The interest people have in money and people who write about money interestingly. That's the Whitman staff of editors: R. S. Yeoman, Kenneth Bressett, Neil Shafer and Holland Wallace — experts and numismatic scholars, all. Add to this the Whitman panels of contributing authorities, some of the most respected names in the field, and you have a combination that adds up to competence in numismatics. Whitman is competence.
